

ABM Co-Hosts Webinar

ABM and Thrive Technologies have partnered together to provide the ABM membership with a game-changing software designed to lower inventory levels and increase order fill-rates. Thrive Technologies provides award winning web based inventory demand forecasting, inventory replenishment and inventory optimization software for distribution intensive organizations. Thrive's software typically reduces distribution inventory by at least 15% within the first year and improves fill rates by up to 5% more.

The member-exclusive webinar demonstrating the software is scheduled for Tuesday, October 15th, 2013, at 11:00 PST.
